

G1-M5-Topic A

G1-M5-L1: Before beginning this module, identify collective fluency challenges. Develop a plan to address them throughout module 5

G1-M5-L2: The application problems in lessons 1 & 2 are missing addend problems. Consider using comparison tape diagrams for **all** application problems during this module.

G1-M5-L3: Throughout this topic, bolster fluency & application problems by giving them more emphasis than usual. Conceptual understanding during the concept development is not nearly as rigorous as it is with other topics.
