

G2-M8-Topic B

G2-M8-L6: Application Problem extension – Frank, Josie, and Raul have 200 cubes altogether.
How many cubes does Raul have?

G2-M8-L7: When reviewing the application problem with Ss, consider demonstrating the solution with a bar model.

G2-M8-L8: It's **NOT** optimal, but if pacing is a problem, consolidate lessons 6-8 into two days.
