

G6-M2 – Topic B

G6-M2-L9: For additional practice, consider using this free worksheet:

<http://www.teacherbilldavidson.com/rational-numbers-ratios-percent-products/add-fractions-to-make-decimals>

G6-M2-L10: In the days leading up to this lesson, consider reviewing the Distributive Property and Area Model with simple whole numbers so that students are comfortable with the concept before trying to apply it to decimals.

G6-M2-L11: So that students can focus on the conceptualization & process of multiplying decimals, consider providing practice problems with digits 5 & under so that they spend their attentional resources on the new concept rather than computing times tables that they might not have mastered.
