

GK-M3 – Topic F

GK-M3-L20: For additional practice, consider delivering this free worksheet:

<https://www.teacherbilldavidson.com/kindergarten-sprints-1/length>

GK-M3-L21: If the Problem Set poses challenges for some students, consider using the attached worksheets for remediation &/or extra practice. Some of the words might need to be edited or whited out & some problems might need to be reformatted.

<http://www.teacherbilldavidson.com/curriculum-resources-1/gku11-same-less-than-more-than-worksheets>

GK-M3-L22-24: A ten-sided die might not be the best tool to deliver this Concept Development. The same understanding can be delivered more efficiently by reducing the number amount & size. A six-sided die, for example, allows for quicker demonstrations of drawing shapes & lowers the affective filter on the amounts students are being asked to draw & compare.
